INTRODUCTION

There are many ways by which individuals may obtain help in financing their education. Loans, bursaries, and scholarships all provide avenues which contribute to making educational opportunities available to all Albertans.

This publication deals with one of these avenues - scholarships and awards. It was designed to be used by counsellors as a resource in helping inform Albertans who are planning to enter the post-secondary education system. The scholarships listed are those tenable in the province's principal post-secondary institutions and represent assistance provided by institutions, the private sector, business and industry, as well as governments. Most of these awards require a certain level of academic achievement on the part of the applicant.

Produced as a general guide, this booklet may not include all available awards. Students are encouraged to consult institutional calendars and awards office personnel for further information and clarification concerning conditions and criteria.

For information on programs designed to provide financial assistance such as guaranteed loans, grants and special assistance programs, refer to the brochure entitled Financial Assistance for Alberta Students, available from the Students Finance Board.

This directory was prepared in cooperation between the Career Services Branch, Alberta Manpower, and the Students Finance Board, Alberta Advanced Education. Inquiries and requests for additional copies should be directed to the Students Finance Board, Advanced Education.

HOW TO USE THIS BOOK

1. Awards are listed within three categories: Government of Alberta, General and Institution.
2. Government of Alberta Awards include those administered by provincial government departments.
3. General Awards include those which are tenable at more than one post-secondary institution as well as some awards tenable at institutions outside Alberta.
4. Institution Awards include those tenable specifically at the institution under which they are listed. Unless otherwise indicated, application for these awards should be made directly to the institution. For addresses and application deadlines, refer to pages 50 and 51.
5. All awards are listed alphabetically by official name or by surname of the individual for whom the award was named.
6. The information listed under "Conditions" may include eligibility, academic requirements and other information specific to the award. Students are encouraged to consult calendars and counsellors for specific details especially in those cases where "other criteria" appears in the conditions column.
